Oracle Corporation

Scale

- \$38.2B in revenue in FY15 *
- 400,000 customers in 145 countries
- \$39B in R&D since 2004
- \$60B on more than 100 acquisitions
- More than 25,000 partners
- More than 132,000 employees
- 18,000 customer support specialists, speaking 29 languages
- 17,000 implementation consultants
- 2.2 million students supported annually

Innovation

- #1 in 50 product/industry categories
- #2 software company in the world
- #2 cloud company in the world
- #16 of 100 Top Global Brands, Interbrand 2014
- More than 17,000 patents worldwide
- 38,000 developers and engineers
- 15 million developers in Oracle online communities
- 900 independent Oracle user groups with 500,000 members

* GAAP revenue reported in USD as of May 31, 2015

Computer Science Education Is Important

Well-paying jobs for the foreseeable future will require CS knowledge.

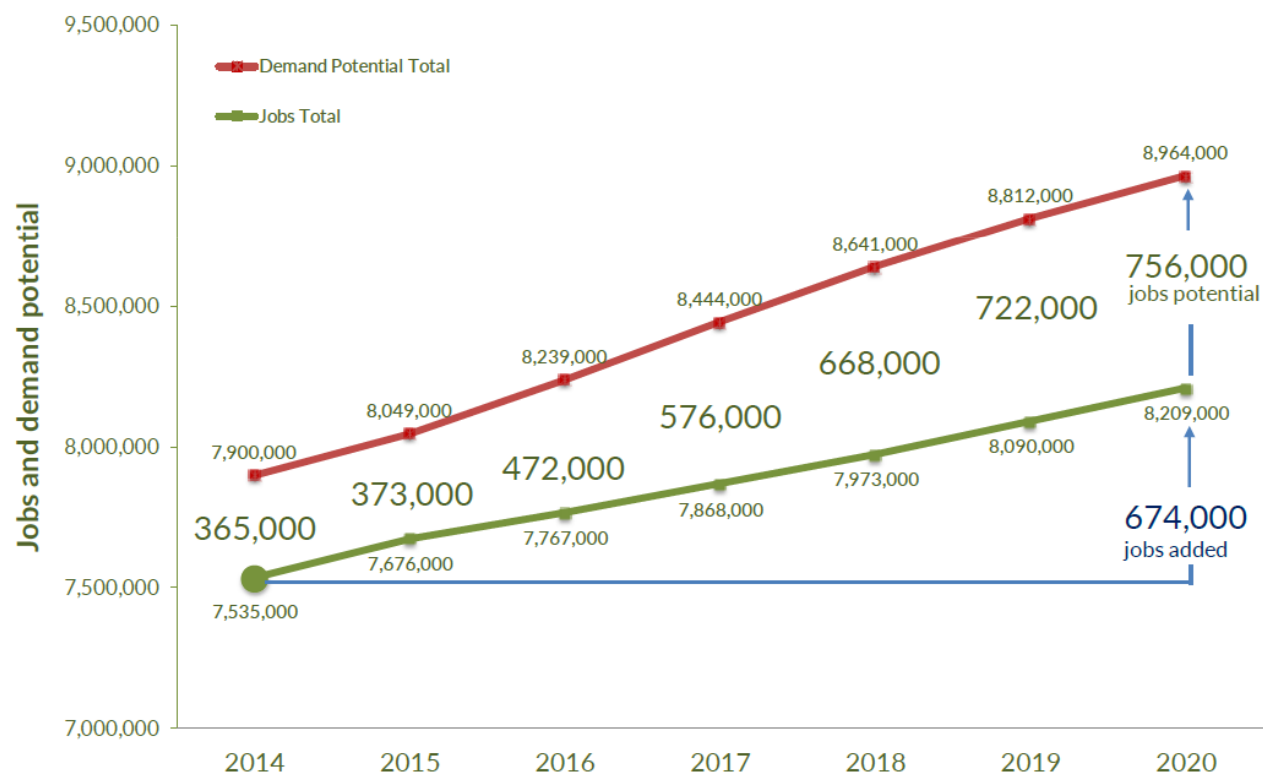

Globally there are more jobs available in CS than there are workers to fill those jobs

As a global population, we are increasingly dependent on computers for our security, well-being, and convenience.

EU & ICT labor needs

Shortage of 750,000 ICT professionals

by 2020 risks potential for growth and digital competitiveness in **Europe**.

<https://ec.europa.eu/digital-agenda/en/grand-coalition-digital-jobs>

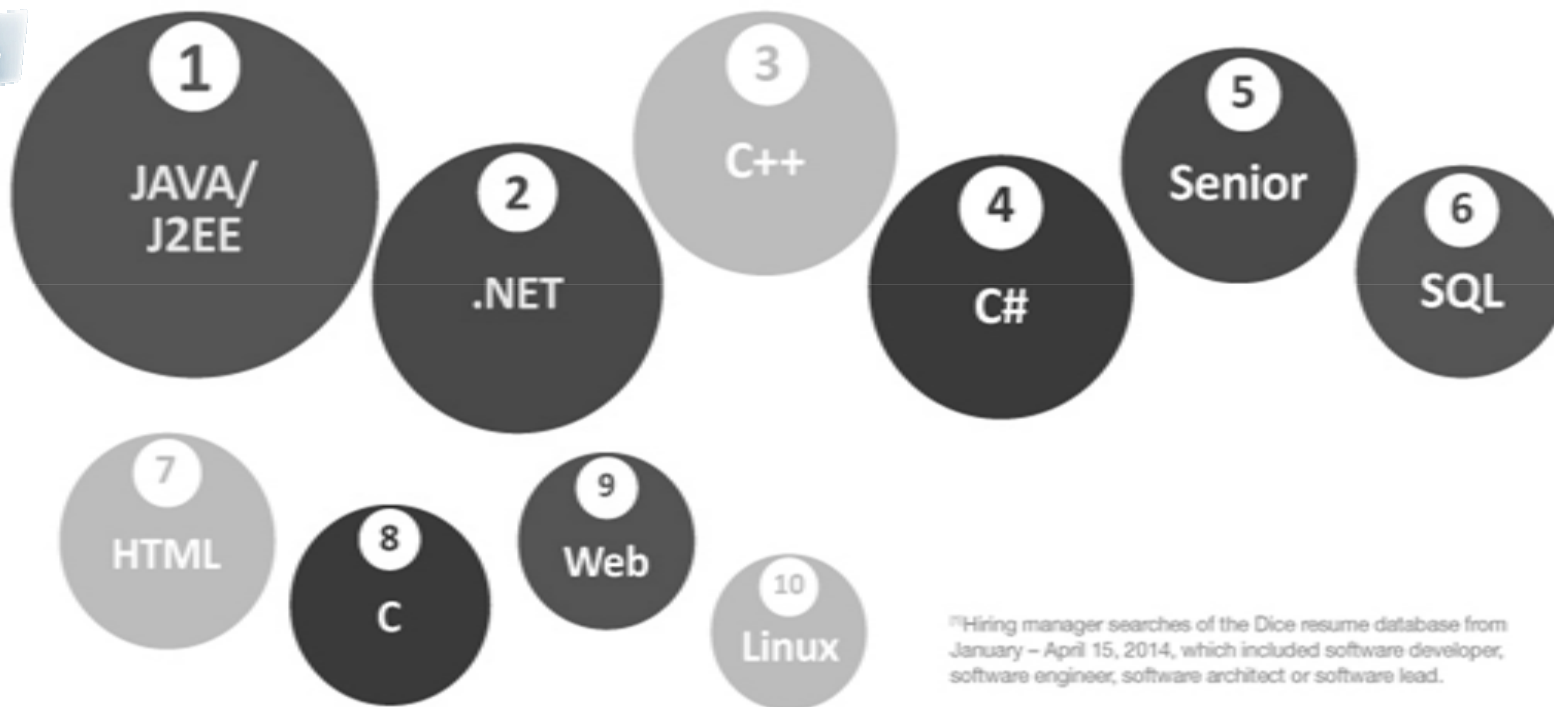

1.4
million

new computer science jobs in the
United States by 2020 with only
400,000 new B.S. graduates in
computer science

U.S. Bureau of Labor Statistics

What Knowledge Do Students Need?

Most Desired Skills: Software Developers

¹⁰Hiring manager searches of the Dice resume database from January – April 15, 2014, which included software developer, software engineer, software architect or software lead.

What Is Oracle Academy?

Oracle's **investment in computer science education** and the development of future technologists, innovators, and leaders

Comprehensive, **free, philanthropic program** supporting computer science and IT education pathways

Oracle Academy

Delivers a complete portfolio of software, curriculum, educator training, support and certification resources

Present in **106** countries

2.6+ M

Students Reached Annually

Provides access to the same technologies that drive industry

Workshop Descriptions

Getting Started with Java Using Alice

This workshop is designed for students with little or no programming experience and teaches basic Java programming concepts through developing 3-D Animations in Alice 3.1.

Students will have fun creating animated stories and games using objects and characters from a rich gallery of 3-D models.

Duration 8 Hours

Creating Java Programs with Greenfoot

This workshop engages students who understand basic programming concepts to create 2-D games using Java. Students will learn detailed object-oriented programming terminology and concepts while creating 2-D games in a fun and interactive environment.

Duration 16 Hours

Academic Curriculum Descriptions - Java

Java Fundamentals

This course of study engages students with little or no programming experience. Participants are introduced to object-oriented concepts, terminology, syntax, and the steps to create basic Java programs. Hands-on, engaging activities to program 3-D animations, develop 2-D games and create Java applications.

Duration 90 Hours

Java Programming

This course of study builds on the skills gained by students in Java Fundamentals and helps to advance Java programming skills. Participants will design object-oriented applications with Java and will create Java programs using hands-on, engaging activities.

Duration 90 Hours

Our Mission

Oracle Academy advances computer science globally to drive knowledge, skills development, innovation and diversity in technology fields.

“Computer science skills transcend most 21st century professions and are fundamental to college and career readiness.”

– Alison Derbenwick Miller, Vice President, Oracle Academy

Oracle Academy Institutional Member Benefits : Summary

Training: In Class, Virtual, Blended Mode, Workshops, Ask the Expert Series, Podcasts, Online Learning Library

Access To Software: Java Development Environments, Oracle Software, Hosted Labs

Oracle University: 50% Discount

Oracle Certification: 25% Discount

Oracle Curriculum: Courses, Oracle Press Books, Online Learning Library

A diverse group of people, including students and educators, smiling and standing together in a modern, brightly lit indoor setting. The group is composed of individuals of various ethnicities and ages, all appearing to be in a professional or educational environment.

Members in Croatia and Bosnia-Herzegovina

Membership is open to students, educators and accredited institutions of learning. Members can incorporate curriculum into degree-granting programs and prepare students with in-demand skills

oracle.com/academy

Oracle Academy in Croatia

100 institutions enrolled by 10. 5. 2016:

- 42 Primary Schools
- 13 Vocational Schools
- 11 Grammar Schools
- 12 High Schools
- 16 Faculties
- 6 Universities (Dubrovnik, HKS, Pula, Rijeka, Sjever, Zadar)

A woman with long brown hair and glasses is sitting at a wooden desk in a classroom or office setting. She is wearing a brown leather jacket and a blue patterned scarf. She is talking on a black mobile phone held to her ear with her left hand, while her right hand rests on a large open book or document on the desk. In the background, another person is visible sitting at a desk, and there are windows and a whiteboard.

[Contact Us](#) | [Legal Notices](#) | [Terms of Use](#) | [Privacy](#) | [About Oracle](#)

Available exclusively to Oracle Academy Institutional members, our comprehensive curriculum offerings are created by professional educators and enable educational institutions to offer computer science course pathways lasting from one semester (or less) to three full years. Complete descriptions of our full curriculum courses can be found [here](#), and descriptions of our Workshops can be found [here](#).

To utilize our curriculum to maximum benefit, you'll want to take advantage of the technologies incorporated into our courses: Oracle iLearning, Oracle Application Express (APEX), Oracle SQL Developer Data Modeler, and a variety of freely available Java development environments. To learn more about these technologies, click [here](#).

Our Alice and Greenfoot Workshops, Java Fundamentals course, and Java Programming course use a variety of freely available Java development environments (JDEs). JDEs must be locally installed on each user's computer. Information and links to download required JDEs are incorporated into the applicable curriculum materials within iLearning.

To learn how to access Oracle iLearning and Oracle Application Express (APEX), click on the boxes below.

iLearning

Oracle iLearning ("iLearning") is an online learning management system that provides you with the curriculum, assessments, practices, projects and teaching resources.

Application Express

Oracle Application Express ("APEX") is cloud-based software used for labs and practices in our Database Design and Programming with SQL and Programming with PL/SQL courses.

Student Certificates

Present certificates to your students who complete Oracle Academy courses and final exams.

[Access iLearning](#)

[Request iLearning Account](#) ▶

Your Oracle iLearning account provides you with the curriculum, assessments, practices, projects and teaching resources required to successfully deliver Oracle Academy courses in your classroom, and is available to you at no cost. From your iLearning account, you will also have the ability to administer student accounts, assign curriculum to students and produce reports to monitor student progress and achievement.

Oracle iLearning requires a separate account and password from your Oracle Academy membership. Once created, your iLearning accounts and associated student accounts will remain valid for as long as your Oracle Academy Institutional membership remains in good standing.

If you are an Institutional member and do not yet have an iLearning account, please request one [here](#).

Once you have received an email with your iLearning password (which also serves as confirmation your iLearning account has been created), follow these steps to access iLearning:

1. Go to <http://ilearning.oracle.com/ilearn/en/learner/jsp/login.jsp?site=OracleAcad>
2. Enter your username and password
3. Click "Login"

Within iLearning, you will find detailed instructions for how to:

- Navigate iLearning
- Navigate instructor and student versions of curriculum
- Navigate instructor and student resources
- View course outlines and delivery maps
- Implement technical requirements
- Create and administer student accounts
- Assign curriculum to students
- Produce reports to monitor student progress and achievement
- Produce student certificates of completion
